

Every Connection Starts With U

WHAT'S IN THE BOX

1 Select a location for your gateway.

Note: Your gateway loves to be on or near a window.

2 Unbox gateway, power supply/cord, and ethernet cable.

3 Power up the gateway.

Plug one end of the white ethernet cable into the PoE port on the gateway. Plug the opposite end of the ethernet cable into the PoE port on the power supply. Plug the black chord into the power supply and then into the power outlet. Your gateway will now be connected to U-wifi.

4 Connect to Wi-Fi.

Connect to the network that starts with #U-wifi. Locate the label on the box for your U-wifi network ID and password.

Congratulations!

U Are Connected to U-wifi

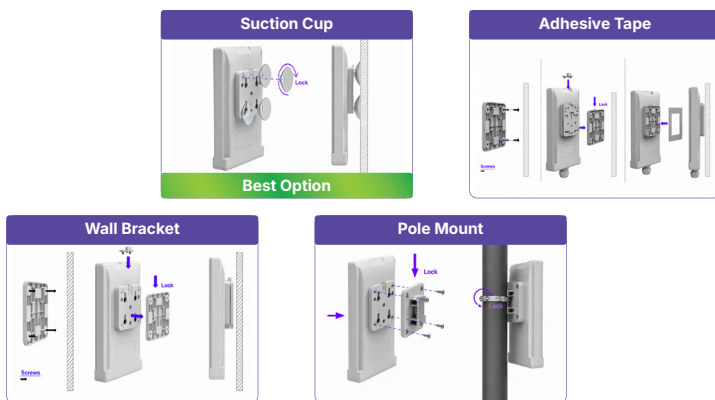

1 Check your signal strength.

The gateway is the happiest with 4 GREEN lights. Move your gateway as needed to find the most GREEN lights.

HINT: Look for 3 or 4 Purple lights and 3 or 4 Green lights to indicate your Gateway is online and ready to go.

2 Select your mounting option as shown in the diagram.

Note: Your gateway loves to be on or near a window.

3 Save your box and mounting options for future use.

In the unlikely event you need to return your gateway, a shipping label is provided, good for 120 days from date of purchase.

Check Out the U-wifi Store
for IPTV, Home Phone, Wi-Fi
Extenders and Other Cool Merch!

Download the U-wifi App from the
Google Play Store or the App Store.
The app allows you to manage your
gateway and watch ads on FreeU to
lower your monthly bill.
